

Siskiyou Velo E-bike Rules

Riders who choose to bring e-bikes must bring only e-bikes in which the motor ceases to assist pedaling when speed exceeds 20 mph (class 1 e-bike) or in which the motor is controlled by a throttle and is governed to 20 mph maximum speed (class 2 e-bike). E-bikes which continue to power above 20 mph are not to be used on Siskiyou Velo rides. These violate the club's liability insurance and are generally forbidden from bicycle lanes and bicycle paths. E-bikes may have 2 or may have 3 wheels.
